

MAUI TWENTY YEARS AGO

(From Maui News, July 7, 1900.)

The Maui Racing Association deserves much credit for the excellent day's sport on the Fourth. They promise to do even better next Fourth.

Wallukana, irrespective of politics, felicitate themselves on the cordial reception accorded to our distinguished townsman, the Hon. A. N. Kepoikai at the Philadelphia convention.

Mr. Ricker and Mr. Tuthill of Honolulu have come to Maui to superintend the construction of several hundred cane cars for the Spreckelsville plantation railway. They will erect a car shop near the warehouse of the company in Kahului. Much material has already been received and more is expected on the Lurline.

The Pala Depot was totally destroyed by fire on the afternoon of last Monday. The fire started in some nitrate of soda that was stored outside the building at the windward end. A portion of the nitrate had melted and run under the building, thus when that outside took fire, the flames were immediately carried beneath the building and the whole structure was a mass of flames. In 40 minutes from the time of the starting of the fire the building had vanished. Nothing was saved but the books of the station keeper. There was stored in the building at the time of the fire 11,900 bags of sugar and a small amount of merchandise belonging to the Pala and Hamakua Stores. Besides the sugar 15 cars were burned, a considerable amount of lumber and 5 or 6 tons of coal. The sugar and building were insured.

Mrs. H. A. Baldwin entertained at her home in Hamakua ten of Makawao's ladies at a "blue" luncheon last Tuesday. The lunch was a farewell to Miss Steele. The decorations were blue pond lilies. Miss Steele departs by the Claudine this week for San Francisco via Honolulu.

Eleven sugar plantations paid dividends on Saturday and yesterday, and the sum of \$227,540 was distributed to the fortunate owners of stock. With the dividends to be paid on or before the middle of the month the total amount of cash paid out will reach nearly half a million. Following is a list of the plantations which paid dividends and the amount of bread money that each handled. Ewa, \$50,000; Hawaiian Sugar Co., \$50,000; Honokaa, \$35,000; Hawaiian Agric. Co., \$30,000; Brewer, \$20,000; Paia, \$15,000; Haiku, \$10,000; Kahuku, \$75,000; Waimanalo, \$5,040; Olowalu, \$3,750; Waimea, \$1,250.—Advertiser.

Telegraphic Items, 1900

Bryan says the Chicago platform will be reaffirmed with strong planks on trusts, imperialism, militarism and the Boers.

Kentucky's State Treasurer lost the combination to his safe and a professional safe-blower was sent from the penitentiary who opened the door in thirty minutes.

The Boxers have posted this placard in Canton, "Kill all Germans, French, Americans, and English. To have peace prevail in the hearts of the people all foreigners should be driven out. This end can be attained in a few days if we unite our strength."

Eighteen years ago the first newspaper was published in Japan. Today there are 575 newspapers, a large number of religious papers, 11 scientific and 35 medical journals. This is very convincing evidence of Japanese progress.

Greeks are said to be yellow with gold in the Nome region.

Senator Lodge thinks America should act in China as a world power.

A powerful French fleet will engage in maneuvers in the English channel.

The skeleton head of a mammoth has been found near San Francisco, at half moon bay.

Berlin celebrated on June 23, the 500th anniversary of the birth of John Gutenberg, the inventor of printing.

The Nuir glacier in Alaska has been shattered by earthquakes and the sea thereabouts is blocked with floating ice.

NOTICE OF MEETING

There will be a meeting of the Hui Kuai Aina o Peahi at the Mormon church, Peahi, Hamakua, Maui, on the 31st day of July, 1920, at 10 a. m. For the purpose of electing new officers and other business as may be brought before the said meeting.

J. K. SMYTHE, President.
FRED WILHELM, Secretary.
(July 9, 16, 23, 30.)

VALUABLE TIMBER—TREE RECOMMENDED

Superintendent of Forestry C. S. Judd, of the board of agriculture and forestry, in the June number of the Hawaiian Forester and Agriculturist, contributes an interesting article on the Kauri Pine, of New Zealand, which he recommends for planting in these islands in moderately moist regions. The tree has been growing in private grounds in Honolulu for at least 40 years, and seems well adapted to local conditions. It is of fairly rapid growth and one of the most valuable of timber trees, Mr. Judd says.

The Personal Touch—A newspaper out West refused to publish the Ten Commandments for fear its readers would think them too personal and stop the paper.—Havensville Review.

The Germans got off lucky at that. There is no amendment to the Treaty making Germany bone-dry on July 1.—Brooklyn Eagle.

IRON WILL NOT RUST

Not if it is Pure
Iron of Fine Fiber

ORDINARY iron rusts out in a short time in this climate because it is flaky and contains chemical impurities that combine with the elements to tear it apart.

ARMCO iron owes its rust resisting fame to its analysis—99.84 per cent pure.
